David Benjamin - Already December

```
                          tom:
               G

           G
Look it's almost midnight
Bm
I hear your moma say
F                                      Am   Am
"Is everybody ready for the countdown?"
G
Can someone "neat" the fireworks
Bm
Champagne on your lips
F                                          Am
It's been a while but I should do remember
            G
How have you been?
What's going on?
                  Bm
Tell me about your dreams
Are they coming along?
           F
I was gonna say
Why did you leave?
             Am
Where did you go?
              G
Yeah I've been fine, taking it slow
                  Bm                       Bm
Went out to see the sun but it's starting to snow
          F
But now I realise
          Am    Am
It really flies
G
It's already December
D
I don't think I wanna know
Am                        C
The only thing it does to me
               D
Is make me feel old
G
It's already December
D
And though it's been a long time
Am                          C
It'll always seem like only yesterday
G
When it rained on the weekends
Bm
You and I had a deal
F                                      Am   Am
I'll play guitar if you play the piano
G
Another thing we love to do
Bm                    Bm
Is break each other's hearts
F                                          Am
Cause you know you are in love when you're in pain
               G
So how have you been?
What's going on?
                  Bm
Tell me about your dreams, are they coming along?
                F
I was gonna say
Why did you leave?
                 Am
Where did you go?
                  G
Yeah I've been fine, taking it slow
                      Bm                          Bm
Went out to see the sun but it's starting to snow
          F                                                Am
When the days go short and the trees all start to glow
Then you just know
G
It's already December
D
I don't think I wanna know
Am                          C
The only thing it does to me
                  D
Is make me feel old
G
It's already December
D
And though it's been a long time
Am                             C
It'll always seem like only yesterday
D                 Am
When you were mine
                  G
When you were mine
                  C
When you were mine
                  Cm
When you were mine
Em                        G
I'm glad you found yourself a man
Bm
He better be good to you
F                                      Am
Cause in a way you'll always be my baby
G
It looks like I'm the only one
Bm
I'm still trying to figure it out
F                                  Am
But I've been making new year's resolutions
G
Cause it's already December
D
I don't think I wanna know
Am                          C
The only thing it does to me
                  D
Is make me feel old
G
It's already December
D
And though it's been a long time
Am                               C          D
It'll always seem like only yesterday
              Am                 G            C
Yeah it'll always seem like only yesterday
                  G
When you were mine
```
