Intro: Riff 1 x2

Riff 1

I roll away just like a stone, falling around wherever I'm thrown
I got lost, got sidetracked, I played dead and I couldn't go back
You asked me how does it feel, everything hurts, everything's too real
I tried to be a part of the scheme, but I can't understand, what does it really mean, what?

And with pride you point blame, but you ever felt love, like you ever felt pain
You give me that sad smile, and I want to drown it, want it gone for a while
I roll away, away from it all, yeah I follow the lights, yeah I follow the call
I fall down and into the sound of the music
The music

C D Em G C D Em G
Tonight I feel it closer, and I can almost touch it

Strong headlights were pointing to my eyes

Behind a killer car, inside a killer heart

"You be strong" said the voice on the phone

I fall down and into the sound

Riff 1

I roll away just like a stone
Falling around wherever I'm thrown
And with pride you point me the blame
Like you ever felt love, like you ever felt pain
I played me but you played a part
And you lost the script, you just found it too hard
I fall down into the sound of the music, the music, this music, the music
