

# David Gray - From Here You Can Almost See The Sea

Tom: G

**Em**  
Come the weekend  
And we'll long gone baby  
Just like the old days  
Letting the world flow through me

**Gb**  
Just a parasite in a line  
I'm smoking, killing the time  
How long's a piece of twine

**Cm**  
What use is sympathy **Em**  
From here you can almost see the sea

**Em**  
If you would hold still  
Could make a clean incision  
Then we could sit back  
And watch the demolition

**Gb**  
Little puppy dog in a box  
Somebody's picking the locks  
Must want the darn from the socks

**Cm**  
Here comes the cavalry **Em**  
From here you can almost see the sea

**Bm** **E** **Em**  
Just another fool in the line  
**Em**  
I dream of high clouds  
Flushed with the light of daybreak  
I'm gonna dive in  
To water so cold it makes your bones ache

**Gb**  
Fingers, knees and knuckles scraped  
All of the rubbish heaped  
a piece of cardboard taped **Cm**  
Up where the bedroom window pane used to be  
From here you can almost

**Em**  
From here you can almost see the sea

**Bm** **E** **Em**  
Just another fool in the line

**Bm** **E** **Em**  
Just another fool in the line

**Em**  
I saw a film once  
Where all the airholes froze up  
A killer whale swam  
Under the blue ice  
Until her heart stopped
