E
Cue the music out the driveway
Slow summer on a Friday
Here we go again, wild in the wind
B **E**
Mama knows she's gonna be late
Hit the party just to watch her dance

Good to go when she grabs your hand
E **A** **E**
Like a shot from a gun, it's a dead run

The first leg of a getaway plan
You burn rubber when you smoke them tires

Day's gone and the night's on fire
A **E**
She's telling you turn off the highway
Dbm **B**
The sunset melts all the blue away
A **E**
Blackbird watching on the telephone wire
Dbm **B**
Whiskey on her lips and the night's on fire
A **E**
Littered with stars close enough to touch
Dbm **B**
July promise in the back of that truck
A **E**
Her every move was taking you higher
Dbm **B**
You try to play it cool but the night's on fire
(**A E B E B**)

She's a seat laid back, a boy's dream

When you know what you're headed to
