

Day - How Did We Get To This Point

Tom: **B**

(forma dos acordes no tom de **G**)
Capostraste na 4ª casa

How did we get to this point?

I'm wanting you more

And now that I have you

I'm missing you more

And I just closed the door

I guess that's how we supposed to be

So just let it be

Don't promise me forever

Just give me everything you got

Cause I'm already yours

I'm already yours

You say

You can't stop thinking about me

And guess what ?

I cant' stop thinking about you

I think I wanna marry you

Have at least two guitars in every room

One or two cats, if not this, what's the use?

I sing a song for you
If I'm not too shy
If you wondering why I just said this, is because
You think I'm fucking amazing, you tihink that

There are multiple galaxies in your mind
Infinite stars wandering
By, there am I, there am I

How do I know you so much?

It's like I can read your mind

Before the words get out of your mouth
No need to legend, baby, is just how it's

You say

You can't stop thinking about me

And guess what ?

I cant' stop thinking about you

I think I wanna marry you

Have at least two guitars in every room

One or two cats, if not this, what's the use?

You sing a song for me in the twilight

This is the best part
I'm living the live because
I think you're fucking amazing, i think that

Acordes
