

Dayglow - Fair Game

tom:

[Tab - Riff]

Parte 1 de 2

Parte 2 de 2

Intro: D

[Primeira Parte]

I'm broken
 Between disillusion
 Outside the window
 Noon-day communion
 I never understood kids in the neighborhood
 Playing in the front yard, loosely committed
 Now as I look upon them in the front lawn
 It doesn't take long for me to get it

[Pré-Refrão 1]

And oh (Oh), oh (Oh), oh (Oh)
 I've been losing my mind for quite some time
 And oh (Oh), oh (Oh), oh (Oh), oh
 I find again that it has been something
 I (I), i (I), i (I)
 Have been so untrue, true, true, oh
 ?Cause, where (Where), where (Where), where (Where)
 Where did I lose you?

[Refrão 1]

Oh, I was something so remarkable
 It seems to me that she was only in my head
 For a moment, I told you I lost it
 Tornado of a conscience
 Spinning around the room
 You move in ways I'll never understand
 So my guess, at best, is only just a second man

[Segunda Parte]

Her fingers
 Were crossed behind her back

Acordes

Well, they say it's fair game

But I don't trust like that

I guess the game we play is taking different shape

We make up new rules as we go along

And all her other friends line up along the fence

I'm in the last draft, as I expected

[Pré-Refrão 2]

Oh-oh, oh-oh (Oh)

I've been losing my mind for quite some time

And oh (Oh), oh (Oh), oh (Oh), oh

I find again that it has been something

I (I), i (I), i (I)

Have been so untrue, true, true, oh

?Cause, where (Where), where (Where), where (Where)

Where did I lose you?

[Refrão 2]

Oh, I was something so remarkable

It seems to me that she was only in my head

For a moment, I told you I lost it

Tornado of a conscience

Spinning around the room

You move in ways I'll never understand

So my guess, at best, is only just a second man

[Ponte]

Oh, I can see what's happening to us
 I saw it from a mile away, okay, oh well

[Solo] A E D
 A E D
 A D
 A D

[Refrão Final]

Oh, I was something so remarkable

It seems to me that she was only in my head

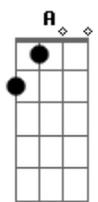

For a moment, I told you I lost it

Tornado of a conscience

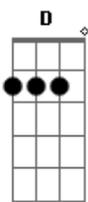

Spinning around the room

You move in ways I'll never understand

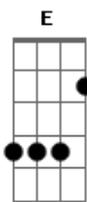

So my guess, at best, is only just a second man
