

# Death Cab For Cutie - Song For Kelly Huckaby Intro

Tom: **Eb**

was what the dominant notes were

ok intro, standard tuning...i think thats all =S

i am fully aware that death cab has 2 guitarists and the two guitarists play notes which sound soooooo alike its not even funny, but u can pick up the minor diffs. what i tabbed

its not the exact octave, maybe one up, but it sounds about right, u can try playing this pattern starting on the **A** (5th) string and playing it on the fifth fret...which ever suits u best.
