

Death Cab For Cutie - Your New Twin Size Bed

Tom: Eb

(acordes na forma do tom D)
Capostrate na 1ª casa
Tuning: Standard, Capo on 1

"Your New Twin Sized Bed"

Returning theme, Gibbard plays this (counted without the capo)

Chords are respective to the capo. If you want to play it without the capo, it would be A#, G#, and Fm.

I'm still not really sure about that Ab (G in the tabs). I play it with an extra D#.
Any suggestions?

D A G
A, G
You look so defeated lying there in your new twin size bed
D A G
G
With a single pillow underneath your single head
D A G A G
D, A, G
I guess you decided that that old queen was more space than you would need
D A G
D, A, G
Now it's in the alley behind your apartment with a sign that says it's free
Em G D, A, G

And I hope you have more luck with this than me

D A G D, A, G
You used to think that someone would come along.
D A G D, A, G
And lay beside you in a space that they belong.
D A G

D, A, G
But the other side of the mattress and box springs stayed like new.

D A G D, A, G
'n what's the point of holding onto what never gets used?

Em G D, A, G
Other than to sit and desire for self-abuse.

D G D A
And I try not to worry, but you've got me terrified

D, It's like your in some kind of hurry
D Em G D, A, G
To say goodbye, say goodbye, say goodbye

D A G D,
A, G
You look so defeated lying there in your new twin size bed
D A G D
You look so defeated lying there in your new twin size bed

[Thanks to Gabriel Arellano for part of the lyrics, SoccerEirich429 for some tips, and Unregistered user for the chords)

Now who wants to tab the leading guitar, instead of the chords? :)
