Death In Vegas - Scorpio Rising

Tom: C

```
                    D                  F
When you kiss the base o'my spine
C           G          D
    Make my body into your shrine
          D                 F
You give me this feeling deep inside
C           G          D
One that I can no longer disguise
              D               F
While other snakes just shed their skins
C           G          D
Fucked holes pointing out my sins
D            F          C           G        D
Even though I realise that history's not on my side
D            F          C           G        D
Even though I realise the pioneer skin still curls up in my
eyes
```
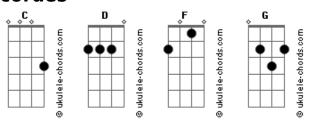

[Refrão]

```
D        F       C            G       D F C G
   If I don't go crazy, I'll lose my mind
   D      F       C          G        D F C G
I saw a life before me but now I'm blind
     D          F           C          G
I wanna go to heaven, never been there before
     D          F           C          G
I wanna go to heaven, so you kill me some more
```

(D F C G D)

```
D               F
Flying high upon the gallows
C               G            D
Too messed up to step out of the shadows
  D                      F
A drugged up heart that knows no sorrow
C           G            D
Rescued from this deep dark hole
D                       F
Stick on these boots and sharpen the nails
C            G          D
Time is nigh for you leather girls
D            F
Maybe we should end this race
C           G            D
   Vanish while we cannot leave no trace
```

[Refrão]

```
D        F       C            G       D F C G
```

```
          If I don't go crazy, I'll lose my mind
   D      F       C          G        D F C G
I saw a life before me but now I'm blind
       D             F            C            G
See one-arm film stars on alien beaches Potted gold and
tattooed faces
D             F            C            G
Harrison murals on the corner, tupperware boxes full of hops
D                      F                    C
G
Diazepam dreams there catching streams  Paper dinosaurs flash
blue and green
D        F    C       G
Still I've got a flash-bulb head
D        F    C       G      D D D D
Still I've got a flash-bulb head
```

[Refrão]

```
D        F       C            G       D F C G
   If I don't go crazy, I'll lose my mind
   D      F       C          G        D F C G
I saw a life before me but now I'm blind
     D          F           C          G
I wanna go to heaven, never been there before
     D          F           C          G
I wanna go to heaven, so you kill me some more
```

(D F C G)
(D F C G)

```
D               F            C                G
Come along nice, come along dead  Scorpio rising, and paint it
red
       D          F             C      G
A psychic equalizer in your head
D               F            C                G
Come along nice, come along dead  Scorpio rising, and paint it
red
       D          F             C      G
A psychic equalizer in your head

D               F            C                G
Come along nice, come along dead  Scorpio rising, and paint it
red
       D          F             C      G
A psychic equalizer in your head
D               F            C                G
Come along nice, come along dead  Scorpio rising, and paint it
red
       D          F             C      G
A psychic equalizer in your head
       D          F             C      G    D
A psychic equalizer in your head
```
