

Demi Lovato - Ghost

```
I could die just looking at you, but if you
                                                              D C
Go before I do, ooh
               tom:
Intro: C Em D G C
                                                              [Refrão]
[Primeira Parte]
                                                                          Em
                                                               I hope you flicker the lights
You and me, I hope we're falling for
                                                              And send a chill down my spine, so cold
                                                                Em D
                                                              Wanna be haunted for life by your ghost
Heavenly, hold me and promise that you'll
                                                                 Em
                                                               If you're not here by my side
Never leave
                                                                      C
                                                               Just show me some kind of sign that you're
[Pré-Refrão]
                                                                      Em
                                                                                  D
                       D
The one thing that I'm scared of is that
                                                              Wanna be haunted for life by your ghost
              D G
Your love could be temporary
I could die just looking at you, but if you
                                                              Am D
Go before I do
                                                              And if I am the first one to go
[Refrão]
                                                              Am D
                                                              0h-woah
                                                                            D
I hope you flicker the lights
                                                              You know I'd never leave you alone
                                                              Am Bm Am C
So, baby, don't leave me alone, oh-woah
And send a chill down my spine, so cold
Wanna be haunted for life by your ghost
                                                              [Refrão]
(Ghost)
