

Demi Lovato - How To Love

```
Tom: C
                                                                ooh
Intro: C Em F Fm
                                                                I had a lot of dreams that transform to visions
                  Fm
Cut the music up, a little louder yeah..ooh
                                                                The fact that I saw the world affecting all my decisions
See I had a lot of crooks tryna steal my heart
                                                                But it wasn't my fault
Never really had luck, couldn't never figure out
                                                                It wasn't in my intentions
How to love
                                                                To be the one here talking
How to love
                                                                To be the one here listening
See I had a lot of moments that didn't last forever
                                                                See I admire your poppin bottles and dippin'
                                                                Just as much as you admire bartending and stripping
Now I'm in this corner tryna put it together
                                                                Baby, but don't be mad
How to love
                                                                Nobody else trippin
                                                                I see a lot of crooks but the crooks still crook
For a second you were here
                                                                See I had a lot of crooks tryna steal my heart
Now you over there?
Its hard not to stare, the way you moving your body
                                                                Never really had luck, couldn't never figure out
Like you never had my love
                                                                How to love
Had a love
                                                                How to love, yeah
When I was just a young'un my looks was so precious
                                                                See I just want you to know
But now I'm grown up
                                                                See I deserve the best
So fly like it's a blessing but I can have a man look at me
                                                                I'm beautiful
for 5 seconds
                                                                Fm
                                                                I'm beautiful
Without me feeling insecure
                                                                Yeah
You never credit yourself so when I got older
It's seems like I came back 10 times over
                                                                See I want you to know, I'm far from the usual
Now I'm sitting here in this damn corner
                                                                Far from the usual
Looking through all my thoughts and looking over my shoulder
                                                                I had a lot of crooks tryna steal my heart
See I had a lot of crooks tryna steal my heart
                                                                Never really had luck, couldn't never figure out
Never really had luck, couldn't never figure out
                                                                How to love
How to love
                                                                How to love
How to love
                                                                I had a lot of moments that didn't last forever
See I had a lot of moments that didn't last forever
                                                                Now I'm in this corner tryna put it together
Now I'm in this corner tryna put it together
                                                                How to love
How to love
                                                                How to love
How to love
                                                                yeah..
                                                                         C Em F Fm
