

Demon Hunter - Black Stained Glass

tom:
Intro: Eb Cm Gm Bb

[Primeira Parte]

There was a time when I would speak like I was there
Under the light of absolution and repair
But here in the fallout I can see where I went wrong
Playing Judas in the dark under my Sun

[Pré-Refrão]

Where is the peace that I once heard
Would follow grace?
All of the holes within my heart
Go separate ways

[Refrão]

Through black stained glass
All my purity's pale
Under the veil of
Black stained glass
Black stained glass

[Segunda Parte]

There was a fire when I was young that took my life
And now I am left just praying death would take me twice

[Pré-Refrão]

Acordes

Where is the peace that I once heard
Would follow grace?

All of the holes within my heart
Go separate ways

[Refrão]

Through black stained glass
All my purity's pale
Under the veil of
Black stained glass
Black stained glass

[Ponte]

And I won't justify this dark and light in one
For all deception said and done
Please don't cast me out for learning to be known
And for the wreck that I've become

[Refrão]

Through black stained glass
All my purity's pale
Under the veil of
Black stained glass
Black stained glass
