

# Demon Hunter - My Throat Is An Open Grave

tom:

Intro: Gm Eb F C

[Estrofe]

We lay face down in pale solitude  
To save face, we pulled our walls in front of you  
To the same place where we danced in front of you  
We fell from grace and watched the hope fall from your face

[Refrão]

This isn't me I used to say  
All the love was so gone  
It feels good to be alive  
I've been dead for so long

[Segunda Parte]

And all those broen promises  
I can't face, afraid if someone notices, I lose my place  
Fractures, broken, paralyzed

I need some space, tear me open, analyze

[Refrão]

This isn't me I used to say  
All the love was so gone  
It feels good to be alive  
I've been dead for so long

( D F C )

Wake up screaming, I'm awake and dreaming  
And I won't stop breathing until my heart stops beating

[Refrão]

This isn't me I used to say  
All the love was so gone  
All the love was so gone  
It feels good to be alive  
I've been dead for so long, so long  
I've been dead for so long
