

# Derivakat - 4Am

tom:  
 Keep me up till 4 AM, I'll stay up for you  
 Keep me wrapped up in my phone, internal deja vu  
 ?Cause with the audio-visual, it's something additional  
 I hear and see your point of view  
 Keep me up till 4 AM, I'll stay up for you

[Primeira Parte]

Lost in shimmering light  
 Rest my head on my pillowcase again  
 Talk me through one more night  
 Pull my sheets over my head and plug me in

[Pré-Refrão]

Go live  
 I'm telling myself it's just five  
 More minutes, I'm feeling my eyes  
 Get heavy again, but we won't sleep  
 No, we won't sleep

[Refrão]

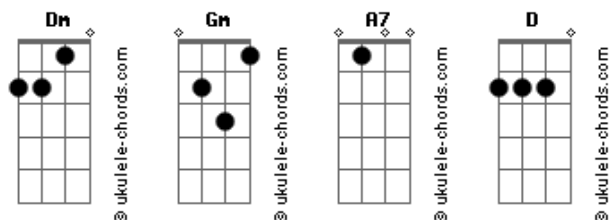

Keep me up till 4 AM, I'll stay up for you  
 Keep me wrapped up in my phone, internal deja vu  
 ?Cause with the audio-visual, it's something additional  
 I hear and see your point of view  
 Keep me up till 4 AM, I'll stay up for you

[Break] Gm A7 Dm  
 Gm A7 Dm Dm D

[Segunda Parte]

Keep me waiting, keep me waiting for you  
 I'm gravitating, gravitating towards you  
 You can hit me up anytime you want  
 'Cause every minute, every second with you

## Acordes

Is another minute, another night you get me through  
 I'll stay with you until the dawn

[Pré-Refrão]

Go live

[Ponte]

Say, say I'll stay awake  
 And watch these restless nights turn into days  
 So say, say you'll stay up too  
 We know we're overdue for some shut-eye, instead I  
 Surrender all my sleep to you

[Refrão]

Keep me up till 4 AM, I'll stay up for you  
 Keep me wrapped up in my phone, internal deja vu  
 ?Cause with the audio-visual, it's something additional
