

Destiny's Child - Hey Ladies

Tom: **Db**

Album: The Writing's On The Wall

What up, y'all?
This is my first TAB, so I'm hopin' it's aight. I know this is some commercial shit, but I just stumbled on the riff and thought I'd put it up on the web. I've downloaded heaps of TAB's from this site, so I felt I should make some sort of contribution. I'm not a very experienced guitarist, but I'm just tryin'a represent for hip hop and R&B on this site.

Repeat throughout the whole song.

h = hammer

I think this is fairly accurate. I played it along with the song and it sounded aight. If anyone has any suggestions on how to improve it, though, that would be much appreciated.

For any suggestions, or just any hip hop heads who wanna connect, holla at me at . Melbourne, Australia, 2002. Peace.
