Tom: E

Gbm Abm Dbm Dbm Gbm Abm Dbm Dbm Ebm

This is repeated through the whole song

Here are the lyrics though some might be wrong.

Hey how you doin' Yeah I'm doin' mighty fine Last time I think It's been a long time Stop smiling let me get that look off your face Please don't leave before ya Stop being so fake I know you do not like me And you made it very clear Your always talking 'bout me From what I hear Always put me down When you thought that you could I want you to know I'm doing so good

Wasn't it you that said I thought I was all that and you Said I didn't have a clue Wasn't it you that said That I wouldn't make it through And wasn't it you that said That I didn't look to good That I wouldn't do to good I'd never make it out the hood I want you to know that I'm doing so good

So good, so good, so good I know you hate it but I'm So good, so good, so good I'm doin' so so so so so good So good, so good, so good, It's hard to face it but I'm So good, so good, so good

This is for them fellas That said we wouldn't make it Now we're doin' platinum

Acordes

But all the people round us That have been negative Look at us now See how we live I stayed up with my people I'm a one to keep it real Didn't get caught up In how to make you feel All the things I'm doin' That you thought I never could I want you to know that I'm doin so good Wasn't it you that said I thought I was all that and you Said I didn't have a clue Wasn't it you that said That I wouldn't make it through And wasn't it you that said That I didn't look too good Look at me now I ain't gone good Now I made it out the hood I want you to know that I'm doin' so good

And now you can't take it
