Dire Straits - Latest Trick

Tom: A

From: (Enrico_Giuseppe BETTIO)

                        LATEST TRICK

Here is the tab to the main sax part that repeats over and over,
Its in C#minor.
Occaisionally you hear another little whine or two from the sax
but theyre no included

                                full

the single full bend I included ( ) is just the way I do it, do it how
you like so long as the not you play is F#. The last three notes might
need checking.

Sounds good with HEAPS of distortion.

If anyone has the chords.. please please post them..

 seeya later
