Intro: Gb  Db  Abm  Abm  B  Gb

[Verse]

                  Db
I wish that it was simple
                Abm
I wish there was a way
                     B
To fix what I have?broken
                  Gb
To?change the way?I?m made
                       Db
Cause words they don?t come?easy
               Abm
And everything I hate is
                     B
Listening to the silence

[Pre-Chorus]

            Gb
When there?s a?million?things?to say to?you I wish you?knew
     Db                      Abm
How hard it is for me to let you know
              B
Cause you don?t know

[Chorus]

    Gb                   Db
That if the world was on fire
            Abm
I?d fight it for you
            B                    Gb
I?d cry enough water and breath all the fumes
                     Db              Abm
```

```
All the burns and the scars I?d wear like tattoos
                 B
And if it meant dying
               Gb
I?d die for you

Db   Abm   B

[Verse]
     Gb               Db
Cause I don?t wanna know what
                  Abm
Living?s like without you
                   B
I can?t do this without you

[Pre-Chorus]
             Gb
Oh there?s a million things to say to you wish you?knew
                             Db              Abm
How hard it is for me to let you know
             B    Gb
Cause you don?t know

I?d cry enough water and breath all the fumes
                     Db              Abm
All the burns and the scars I?d wear like tattoos
                 B

I?d die for you
