

Dish Carpens - Spontaneously

tom:
Gb

Intro: B Gb

Don't do what you don't want to

Hang on, 'cause better times will come for you (come for you)
They will come for you (come for you)

Just wait to see

Don't go where you don't want to
Leave all!

It's time to make a change in your life (change your life)
A change in your life (change your life)

Let's slow it down!

There are some problems everywhere

The fact is that some people just don't care

But I can't live with all this mess

Our freedom's growing each day less and less

I'll tell you

The life I dreamed of is now lost

Humanity is charging a high cost

Shall we agree with fellow men

And learn to do the best that we all can?

So I ask you

Why can't we just get out!

Why can't we just get out!
