

## Disney - Moana - Where you Are

```
Consider the coconuts
Intro: E x3
                                                                The trunks and the leaves
Moana, make way, make way
                                                                The island gives us what we need
Moana it's time you knew
                                                                    F B Dbm
The village of Motonui is all you need
                                                                And no one leaves...
The dancers are practicing
                                                                That's right we stay
They dance to an ancient song
                                                                We're safe and we're well provided
Who needs a new song?
                                                                And when we look to the future
                                                               There you are
This old one's
                                                                Dbm
All we need
                                                                You'll be okay
                                                                In time you'll learn just as I did
This tradition is our mission
And Moana there's
                                                                You must find happiness
So much to do
                                                                Right where you are
                                                                EAEA
Don't trip on the taro root
That's all you need
                                                                I like to dance with the water
We share everything we make
                                                                The undertow and the waves
We joke and we weave our baskets
                                                                The water is mischievous, ha!
                                                                I like how it misbehaves
The fishermen come back from the sea
                                                                The village may think I'm crazy
I wanna see...
                                                                Or say that I drift too far
Don't walk away
                                                                But once you know what you like
                                                                Well there you are
Moana stay on the ground now
Our people will need a chief and there you are
                                                                You are your father's daughter
                                                                Stubbornness and pride
There comes a day
When you're gonna look around
                                                               Mind what he says but remember
And realize happiness is where you are
                                                                You may hear a voice inside
                                                                And if the voice starts to whisper
Consider the coconut
                                                                To follow the farthest star
Consider its tree
                                                                Moana, that voice inside
Each part of the coconut
                                                                Is who you are
That's all we need
                                                                Abm
                                                                  A E A
We make our nets from the fibers
The water's sweet inside
                                                                We make our nets from the fibers
We use the leaves
                                                                The water's sweet inside
To build fires
                                                                We use the leaves
We cook up
                                                                To build fires
The meat inside
                                                               We cook up
                                                                The meat inside
```

```
E
The village believes in us
                                                               Dbm
                                                               I'll lead the way
                                                               I'll have my people to guide me
The village believes
                                                               We'll build our future together
The island gives us
       В
                                                               Where we are
What we need
                                                               Cause every path leads you back to A B Dbm
   E B Dbm
And no one leaves
                                                               Where you are
                                                               Dbm
So here I'll stay
                                                               You can find happiness right
My home, my people beside me
                                                               Where you are
                                                               A B
And when I think of tomorrow
                                                               Where you are
There we are
```

## Acordes
