

Djalma Lucio Ayres - Troublesome

Tom: **D**

I don?t wanna **D** another lullaby **Gm7**
 And please don?t try to see a dragon in my eyes because you won?t **C**
 As I wonder what it?s all about **Gm7**
 I realize you?re gonna get into my mind **C**
 You come and go **D**
 And I start losing track of time **Am7**
 Now I beg you, get away from me **Ab7**
 With all this load in my head, what?s gonna be? **Em** **A7M(#5)**
D **Gm7**
 I don?t trust you and you can?t stay here **C**
 You know the drill, You?re always looking for someone **D**
 You?re so alone **Gm7**
 I remember frightened all those years **C**
 Don?t say I fear falling love once again **D**
 Watch your tone **Am7**
 I don?t really know what you mean **Ab7**
 When you say the thing drives you mad **Em**
 ?Cause if there?s someone mad now **A7M(#5)** **D**

That someone will be me
 In summertime you got no reason to remind to decide **Em**
 If you are here, if you are there, If you are gone **A**
 One never knows, I can assure you **D**
 I?ve put aside all the songs I was to do to you
 You know, I?m not your pawn
 But now the winter is coming
 Doors are closed, no one around
 Where are the parties, the parades, where to go? **Em**
 The solitude is your companion into the night **A**
 Until you find your only shelter from the snow **A7M(#5)** **D**
D
 Oh, here we go again **Bm7**
 The smell of lies, one can feel it here all around
 No room for cheating, no one else is coming **Em7**
 Cross your heart **A**
 Again she saying ?you don?t have to be so cruel
 I wanna be with you? **D**
 Until the other night I rang the bell trying to reach out **Bm7**
 She was never home **Em7**
 She changed her number and defined me as troublesome **A**
 All of a sudden we are here, all is good and she is in the mood
