

DMA's - Delete

tom:
Capostrate na 4ª casa
Intro: G D C G D C

[Verso 1]

Don't forget about the stars the sky
Lucid as the air that blows and light that shines
Just a way to figure out her when the night is long
Take a little wander outside through the rain and snow
Just a way to figure out her

[Pré-Refrão]

Don't delete my baby don't defeat her still
In the quite of nothing to the hands of grace
Don't delete my baby don't defeat her now
Don't delete my baby

Won't you always find going to shine a diamond like you never did
Going to show you something I can't be taught
Don't delete my baby I'll find a chorus now

[Refrão]

You know that I belong to be reflections of myself
Let it all out just let it all out to find the feeling
[Verso 2]

Don't take it to the one in mind
Always know it needed to belong to find
Know that when I do want to face the place
Take a little wander outside through the rain and snow
Just a way to figure out her

Don't defeat my baby don't delete her still
In the quite of nothing to the hands of grace

Don't delete my baby don't defeat her now
Don't defeat my baby

Won't you always find going to shine a diamond like you never did
Going to show you something I can't be taught
Don't delete my baby I'll find a chorus now

[Refrão]

You know that I belong to be reflections of myself
Let it all out just let it all out to find the feeling
Don't wait
Just let it all out
