The first time you're in love it feels so right
Its not supposed to be what people think
It don't matter this time

I have all I ever wanted
And it's all I'll ever need
You know everything about me
But you're a mystery

It's not about me
It's not about us
It's all about love
It's not about you
It's all about truth

And this is because
I'm never gonna say I'm sorry
Cause nobody knows our story
It's all about love
Love

(Am F C G)

The first time you're in love
It feels so right
Its nothing but this heartbeat that we share
Together in the night

I have all I ever wanted

And it's all I'll ever need
You know everything about me
But you're a mystery

It's not about me
It's not about us
It's all about love
It's not about you
It's all about truth
And this is because
I'm never gonna say I'm sorry
Cause nobody knows our story
It's all about love
Love
