Dodie Clark - Not What I Meant

Tom: G

```
            G
Let?s find out just how far i?ll go
G                             Em
To look like someone you should know
           Am7
Maybe i?d sound a little better
C
If my features were more sweet

G
Your mind?s already been made up
G                          Em
You saw my number and my number wasn?t good enough
     Am7
I?ll write a little better
C
If i?m willing to compete

G                 G7
I?ll do it if i have to
C7M           C
Hoping for an inbetween
G                         G7
Not what i meant when i said that i
C7M          C    G
I wanted to be seen

G
How am i meant to stay on track
          G                       Em
When each hand i shake will pull me back
         Am7
```

```
Oh i?ll work a little harder
          C                 G
But walk a little less

G
And in the end will i feel proud
G                           Em
That i grit my teeth, and followed the damn crowd
              Am7
Will i have grown a little empire
          C
Or made a fucking mess

G                 G7
I?ll do it if i have to
C7M           C
Hoping for an inbetween
G                         G7
Not what i meant when i said that i
C7M          C    G
I wanted to be seen

G                 G7
I?ll do it if i have to
                   Em
(i?ll keep it to myself)
C7M           C
Hoping for an inbetween
      G7                    C
(i must have seen that somewhere)
G                         G7
Not what i meant when i said that i
C                         G
I wanted to be seen
```
