Douglas Júnio Costa - Throug The Storm

```
                    tom:
                      G
Intro:  G   Em   C   D
```

[Primeira Parte]

```
G                         Em
There?s a shadow in my mind
C                         D
Whispering words I can?t define
G                         Em
Some days I?m up, some days I fall
C                         D
But I?m still standing through it all
```

[Pré-Refrão]

```
C                         G
Though the darkness tries to stay
Em                        D
A little light will find its way
```

[Refrão]

```
G                         Em
I?ve got my battles, I?ve got my scars
C                         D
Sometimes I?m lost, reaching for stars
G                         Em
But when you hold me, I feel no pain
C                         D
With just one hug, I?m whole again
```
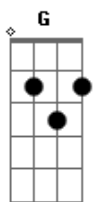

[Segunda Parte]

```
G                         Em
I see the waves crash in my soul
C                         D
Tearing apart the self-control
G                         Em
But every storm that shakes my ground
C                         D
Teaches me how to turn it around
```
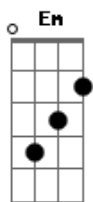

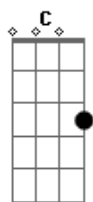

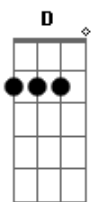

[Pré-Refrão]

```
C                         G
Though the darkness tries to stay
Em                        D
A little light will find its way
```

[Refrão]

```
G                         Em
I?ve got my battles, I?ve got my scars
C                         D
Sometimes I?m lost, reaching for stars
G                         Em
But when you hold me, I feel no pain
C                         D
With just one hug, I?m whole again
```

[Ponte]

```
Em                        C
The highs and lows, they come and go
G                         D
But in your arms, I feel at home
Em                        C
No need for words, just stay near
G                         D
Your touch reminds me why I?m here
```

[Refrão]

```
G                         Em
I?ve got my battles, I?ve got my scars
C                         D
Sometimes I?m lost, reaching for stars
G                         Em
But when you hold me, I feel no pain
C                         D
With just one hug, I?m whole again
```

[Final]

```
G                         Em
Through the storm, I?ll find my way
C                         D
Your love?s the light that keeps me safe
```

(G   Em   C   D)
