Tom: A
                                                                Cause you're a good girl and you know it
  Verso:
                                                                I know exactly who you could be
I got my eyes on you You're everything that I see
                                                                Refrao:
I want your hot love and emotion, endlessly
                                                                Just hold on we're going home
I can't get over you You left your mark on me
                                                                Just hold on we're going home
I want your hot love and emotion, endlessly
                                                                It's hard to do these things alone
Cause you're a good girl and you know it
                                                                            Gbm
