Dream Theater - Regression

Tom: D

```
    D                          D
Safe in the light that surrounds me
  G                         D   D
Free of the fear and the pain
       Bm                        Bm
My subconscious mind starts spinning through time
    E                    A  A
To rejoin the past once again

 D                          D
```

```
Nothing seems real, I'm starting to feel
 G                      D   D
Lost in a haze of a dream
    Bm                      Bm
And as I draw near the scene becomes clear
      E                      A  A
Like watching my life on a screen

 G
Hello Victoria
 A          A         D
So glad to see you my friend
```
