

# Dua Lipa - New Love

Tom: **G**

[Verse 1]

Now it's getting **C** quiet here

Now it's getting **D** blue

And this baby ain't no fair **C**

Taking up my youth **D**

You've been telling me some lies **C**

I've been thinking it's the truth **D**

But I see it in your eyes **C**

The things that you do **D**

I don't wanna waste more time all alone **C**

Want somewhere to go **D**

Something to call my own **C**

And I ain't satisfied **D**

When you're gone **C**

Lost out on the road, washed up on the shore

[CHORUS]

And I've been **G** through mountains and seas **C**

Tryina get you to come back to me **Am**

And I've been **G** far and I've been so deep **C**

Now I find it harder, and harder to breathe **Am**

And I need some new love, new love, new love **C**

And I need some new love, new love, new love **D**

[BRIDGE]

Easy come, easy go, why? **C**

I've been living on, living on **D**

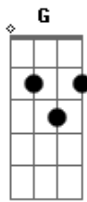

Living on, give it all, give it all **C**

Can't I just let it go? **Em**

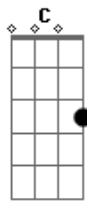

'Cause I wait for a miracle **G**

I wait for a miracle, yeah! **D**
