

# Dylan Espeseth - Falling Faster

tom:  
 I've I've dodging all of my friends calls  
 And I'm really sorry to em all  
 But I've been losing it  
 Going off of the deep end  
 I don't know what the future holds  
 Can't imagine myself growing old  
 Feel like the whole world's collapsing around me  
 I don't know what the hell to do  
 I think my sanity is screwed  
 Feel like im Drifting alone in space  
 ( G )  
 I've been  
 Falling faster  
 My mind is going numb  
 Life is  
 A big disaster  
 I'm falling out of touch  
 I've been having nightmares as of late

Still better than being awake  
 I hope i don't fall victim to myself  
 Don't think my mind will ever change  
 I think I might be stuck this way  
 I've been falling losing hope that anything could save me  
 I think I might collapse real soon  
 Burn out and stay inside this room  
 I've been growing bleaker weaker  
 Fading every moment  
 ( G )  
 I've been  
 Falling Faster  
 My mind is going numb  
 Life is  
 A big disaster  
 Im falling out of touch  
 I've been dodging all of my friends calls  
 And I'm really sorry to em all  
 But I've losing it  
 Going off of the deep end
