Tom: **G**
Intro: **G Em C**

G
She looks so pretty with no makeup on
Em
You should hear her talking to her mama on the phone
C
I love it when she raps to an Eminem song
G
That's my girl
G
Man, her eyes really drive me crazy
Em
You should see her smile when she holds a baby
C
I can honestly say that she saved me
G
My girl

G
Yeah, that's my girl in the passenger seat
Windows down, dancing around, causing a scene
Em
That's my girl, sipping Crown and Sprite
In a ball cap, turned back, ooh, she got me like
C
Yeah, baby girl, you went and done it again

Making all the guys wish that you were with them
D
But I bet they don't see what I see when I see my girl
G
Oh, my girl

G
Every night when she goes to bed
Em
She hits her knees and bows her head
C
Thanks the Lord for another day
G

I just thank Him for my girl

G
Yeah, that's my girl in the passenger seat
Windows down, dancing around, causing a scene

Em
That's my girl, sipping Crown and Sprite
In a ball cap, turned back, ooh, she got me like

Making all the guys wish that you were with them

G
Yeah, that's my girl
In my truck, in the songs that I sing with the radio up

My girl
In my heart, in my soul and the air that I breathe every day
C
That's my girl
G
