

Eagle-Eye Cherry - Are You Still Having Fun?

Tom: **B**
Intro: (**Abm Dbm E E**) x4

(**Abm Dbm E**)
You are on your own
You do as you please
Having so much fun
Gone and lost your reason
After all is said and done
Are you still having fun?

How were you to know when you've gone astray?
That happiness would go like a lost emotion
You have always gone your way
Are you happy today?

Well you know when you've been defeated
You don't care and you thank no one
Feeling low you will always need it
Are you having fun

Dbm E Gb

0000000, 000000, Just to show that you're having fun

(**Abm Dbm E**)
This was your mistake with the master plan
With all the drugs you take, you can hardly stand
After all is said and done
But Are you still having fun?

Well you know when you've been defeated
You don't care and you thank no one
Feeling low you will always need it
Are you having fun...

I can set you straight if you let me stay
I hope I'm not too late
No you won't regret it
I can show you the way
And make you happy today

Yes you know when you've been defeated
You don't care and you thank no one
Feeling low you will always need it
Well you know when you're being cheated
Well you know when you've been defeated
Feeling low you will always need it

Are you having fun...
are you still having fun...
are you still having fun...
