Eagle-Eye Cherry - Are You Still Having Fun?

Tom: B Intro: (Abm Dbm E E) x4

(Abm Dbm E) You are on your own You do as you please Having so much fun Gone and lost your reason After all is said and done Are you still having fun?

How were you to know when you've gone astray? That happiness would go like a lost emotion You have always gone your way Are you happy today?

Well you know when you've been defeated You don't care and you thank no one Feeling low you will always need it Are you having fun
