

Easy Life - Frank

Tom: **G**
Intro: **Eb7M Bb7M**

[Primeira Parte]

I'm sorry that I'm such a showoff **Eb7M**
Sometimes I need to let it out **Bb7M**
Put it on my chest and blow it off
Sometimes I just needed a minute **Eb7M**
Other times I needed you to let me off
But we could build a bridge and get it over it **Bb7M**
But you still seem to have it in your head
That the world isn't in your palm **Eb7M**
And too many people
They can't even handle the truth
They need to know now **Bb7M**
Cause I just spoke to Frank
He told me why I'm confused
I need to slow down **Eb7M**
But there's too much weight in your decisions
It's affecting your condition **Bb7M**
But if all your satin silk don't keep the devil at bay
Then you should dress down

And we're driving to the edge with the city lights on **Eb7M**
I know you're wondering why nobody stickin' around and why nothing lasts long **Bb7M**
But with this pink sky blazing on the west side baby don't you feel wholesome **Eb7M**
If you fall short of your potential, baby this'll be a problem **Bb7M**

[Segunda Parte]

I'm sorry that I'm such a showoff **Eb7M**
I get you're going through some shit
Raise a glass to your mother **Bb7M**
We can sip it off
Don't look the other way
When I ask if you're okay

No need to shrug me off **Eb7M**
But we just really need to get over it **Bb7M**
But you still seem to have it in your
That the world, it isn't in your palm **Eb7M**
And too many people
They can't even handle the truth
They need to know now **Bb7M**
That sending messages through your cracked screen
Should be the only time you look down **Eb7M**
But these demons are clouding up your vision
And crippling your ambition **Bb7M**
So take your own advice
And keep on doing yourself
Don't ever calm down
And we're driving to the edge with the city lights on **Eb7M**
I know you're wondering why nobody stickin' around and why nothing lasts long **Bb7M**
But with this pink sky blazing on the west side baby don't you feel wholesome **Eb7M**
If you fall short of your potential, baby this'll be a problem **Bb7M**
[Ponte]

But baby it's a strange world **Eb7M**
But I'll keep it strange for you **Bb7M**
And I'll rearrange for you **Eb7M**
Such a strange world **Bb7M**
But baby it's a strange world **Eb7M**
But I'll keep it strange for you **Bb7M**
Oooh, I'll rearrange for you **Eb7M**
It's a strange world **Bb7M**
And we're driving to the edge with the city lights on **Eb7M**
Nobody stickin' around and why nothing lasts long **Bb7M**
But with this pink sky blazing on the west side baby don't you feel wholesome **Eb7M**
If you fall short of your potential, baby this'll be a problem **Eb7M**
