

Echosmith - Dear World

```
Tom: C
                                                              [Segunda Parte]
                                                                             Fm
                                                                                        Am
           [Primeira Parte]
                                                              Dear world, I'm ready to be the change
                                                              C Em Am
Dear world, your beauty is born from pain
Dear world, I'm writing this song for you
                                                                                         Em
                                                              You're looking for the magic to rise above the tragic
          Em
Dear world, I know what you're going through
                                                              I am too
I know you're scared about tomorrow, scared of feeling hollow
                                                                C
                                                              Dear world, I'm writing this song for you
I am too
                                                              [Refrão]
   C
              Em
                                 Am
Dear world, I'm writing this song for you
                                                              Dear world, this ain't all that I thought you it be
$\operatorname{\textsc{F7M}}$ C Dear world, you ain't all that I thought you would be
                                                              A few trips ago 'round the sun
                                                              I'm trying to find out what it means to be me
A few trips ago 'round the sun
                                                              I feel like I've barely begun
I'm trying to find out what it means to be me
                                                              How many souls can be crowded together
I feel like I've barely begun
                                                                        G F7M
                                                              And all of us feeling alone?
             G
How many souls can be crowded together
                                                              All of us longing for home
 Am G F7M
And all of us feeling alone?
                                                              All of us longing for home
              G
All of us longing for home
                                                              All of us longing for home
All of us longing for home
                                                              Dear world
