Verso:
```
            Gb
Ooh, this don't feel right
Db                                 Ab
 In fact, it feels like things are escalating
Gb
 Just last night
Db                  Ab
 I heard talks of a new beginning
```

Pre-Refrão:
```
Gb                      Db   Ab
 And this is getting out of hand
Gb
And I'm sure you understand
                  Db    Ab
That we can't stay
```

Refrão:
```
Gb
Tonight we'll dream to a better cause
Db                  Ab
Stand straight for the crooked ones
Gb                        Db  Ab
We'll set out and see how far we'll go
            Gb
And we'll live life in a different light
Db                  Ab
Steadfast through the darkest night
Gb                          Db  Ab
Keep our heads up and eyes fixed on the road
          Gb            Db   Ab
We're not alone, we're not alone
          Gb            Db   Ab
We're not alone, we're not alone
```

Verso:
```
      Gb
Since we've been gone

Where we're from
Db                          Ab
'Cause since we left things are moving faster
```

Pre-Chorus
```
Gb                        Db
And now we're closer to the sky
Ab                Gb
 When we see the sun rise
```

```
                Db   Ab
We'll be on our way
```
