

Ed Bruce - The Greatest Love Song

tom:

E

Sometimes I look at you, look at me

A B7 E

I can't believe what I see

A E

A woman's love who keeps on givin me

A B7 E

The kind of love I thought could never be

A B7 E

The poet's words of love cannot compare

A B7 E

With the sprinkle of the stardust in your hair

A E

And melodies in shame would turn away

A B7 E

In the presence of your gentle loving way

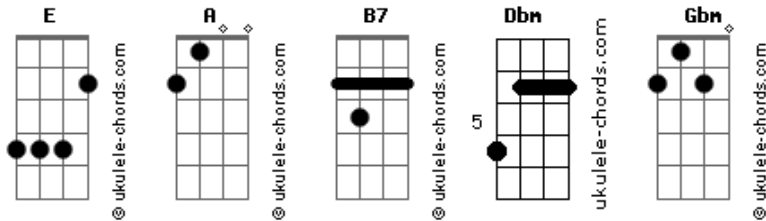

B7

And I know that I could never ever put them all together

Dbm E A

But if I could I know that I would find

Acordes

Gbm A B7

The greatest love song in the whole wide world is right there in

E

Your eyes

E A E

Every day I see within your smile

A B7 E

The rainbows of a hundred thousand miles

A E

And a million loving feelings I can't say

A B7 E

So I'll just keep on loving you this way

B7

And I know that I could never ever put them all together

Dbm E A

But if I could I know that I would find

Gbm A B7

The greatest love song in the whole wide world is right there in

E

Your eyes
