

Ed Motta - The Caretaker

Tom: G

Help me build moon
This evening
Night will be here
Too soon
If there's no moon
In the sky well
Angels won't see
No light
Hit the ground
And soon
There's angels
Crashing down
Around the town
My job
Is to make sure
They don't
Heavens caretaker
I'm sweeping up
Another night
Don't let them
Be complaining
Say now
I didn't see
Go let'em know
I'm starting
build That moon
Make that light

B

Shine it out

But there's one way

To make moon melody

It's true

A silver spoon

And kiss or two

I'll buy a kiss now

Don't be scared

This night

Will chose you

Heard your voice

Knew it was

The new you in me

I need to know

Steal your soul

Don't be scared

I'm just

Heavens caretaker

Sweeping up the night

Help me build moon
This evening
Time it won't let us be
Don't ask
For no understanding
They don't know
You won't know
I don't know

Your you in me
Makes the moon melody
Come true
If you just
Sell your kiss
It starts
The caretaker
Trying to light
Another night

Acordes
