

# Ed Sheeran - American Town

tom:

C

[Primeira Parte]

We're a long way from home  
Haven't seen you in so long  
But it all came back in one moment  
And the year started cold  
But I didn't notice at all  
And when we found there's a room we're both in

[Pré-Refrão]

We get Chinese food in small white boxes  
Live the life we saw in Friends  
Your room, it barely fits the mattress  
Wake up, leave for work again  
The wind, it seems to blow right through us  
Down jackets are the trend  
The rush, we're rushing deep into love

[Refrão]

English girl in an American town  
No elevator to the fifth floor  
I'll ring on the buzzer, then you'll be right down  
I wish time would freeze  
Dungarees over the hoodie, we're out  
Feet are three feet off the ground  
Lost in love and we don't wanna be found  
It's just you and me  
My English girl in an American town  
In an American town

[Segunda Parte]

Days come and go  
But it ends windows closed  
And the scent of your perfume's on me  
You're useless with your phone  
Electric when one-on-one  
I thought I would be more nervous, darlin'

[Pré-Refrão]

We watch comedies and miss the endings

Conversations till the dawn  
And your changin' tide, we push against it  
Challenge meanings in the songs  
And head out without a reservation  
Drinkin' out of paper bags  
And wasting time is time not wasted

[Refrão]

For my English girl in an American town  
No elevator to the fifth floor  
I'll ring on the buzzer, then you'll be right down  
I wish time would freeze  
Dungarees over the hoodie, we're out  
Feet are three feet off the ground  
Lost in love and we don't wanna be found  
It's just you and me  
My English girl in an American town

[Ponte]

And when our eyes are closed together, I can't explain  
How the scent of your perfume takes me to a higher place  
We can watch it unfold or we can change how it takes  
And we build when it breaks down

[Pré-Refrão]

We drink Moscow Mules and steal the cups  
From, mostly the Bowery bar  
What a perfect day to fall in love on  
What a way to make a start  
And it appears, when you think all is lost  
Then, you don't remember when it started  
Never have to pretend

[Refrão]

With my English girl in an American town  
No elevator to the fifth floor  
I'll ring on the buzzer, then you'll be right down  
I wish time would freeze  
Dungarees over the hoodie, we're out  
Feet are three feet off the ground  
Lost in love and we don't wanna be found  
It's just you and me

English girl in an American town

**Em**

No elevator to the fifth floor

**F**

I'll ring on the buzzer, then you'll be right down

**G**

I wish time would freeze

**C**

Dungarees over the hoodie, we're out

**Em**

Feet are three feet off the ground

**F**

Lost in love and we don't wanna be found

**G**

It's just you and me

My English girl in an American town
