G
   You see tonight
         Bm
It could go either way
D                       A
   Hearts balanced on a razorblade
G                     Bm
   We are designed to love and break
       D                    A
And to   rinse and repeat it all again

[Pré-Refrão]

You make me feel
           Bm
Like I'm drunk on stars
           D               A
And we're dancing out in the space

[Segunda Parte]

G
   You see the light shining
     Bm
Through the rain
D
A thousand colors
         A
In a brighter shade
G
   Needed to rise
         Bm
From the lowest place
              D
There's a   silver lining
         A
That surrounds the gray
