

Ed Sheeran - Colourblind

tom:

[Primeira Parte]

Kaleidoscope love, yeah
That is you and me
Forever changing
We make life interesting
Some days we're red and
Some days we both in green
But I like the nights
When we leave the canvas free

[Pré-Refrão]

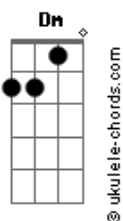

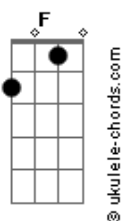

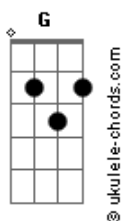

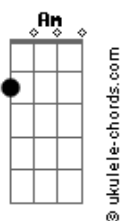

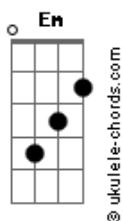

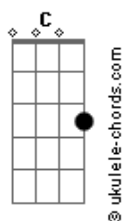

Grab a brush
And see where the feeling may lead
Nothing is out of our reach
Our words are mixing the pigment we need
Can we get started?

[Refrão]

I keep falling
Deeper in dark blue
Bright?r than white
Rainbows, ?xploding
But I can't see nothing except you
And your eyes
Maybe we'll just paint
The night colourblind

[Segunda Parte]

Acordes

In every spectrum
We find the millionth piece
Connect the dots
And everything in between
Mm, dull in the moment
You'll turn it golden leaf
You take the dark away
And that's no easy feat

[Pré-Refrão]

Pick an orange
Watch the shade change in the heat
From yellow, purple and green
Your words are mixing
Each pigment we need
Can we get started

[Refrão]

I keep falling
Deeper in dark blue
Bright?r than white
Rainbows, ?xploding
But I can't see nothing except you
And your eyes
Maybe we'll just paint
The night colourblind

Maybe we'll just paint
The night colourblind
