Intro: Anything she need, she can call me

Don't worry 'bout her, that's my seed, dawg that's all me

Just know if you cross her, then you cross me

Cross me, cross me, if you, if you, if you, if you

[Primeira Parte]

(It's Fred again) anything she need, she can call me

Don't worry 'bout her, that's my seed, dawg that's all me

Just know if you cross her, then you cross me

Cross me, cross me, if you, if

And she ain't messin' with no other man

And me and her have something different

I really need all you to understand

That nobody's comin' close

And I don't ever wanna run around

I spent my youth jumpin' in and out

But you know I fuckin' love her now

Like nobody ever could

[Pré-Refrão]

And you know I

Stay trippin', am I crazy, oh no

I'm stickin' with my baby for sure

Together or solo

It doesn't matter where we are, oh no, no

So if you hear about my lady, just know

That she ain't the one to play with, oh no

And I'll be standin' so close

So you know that, hey

Anything she need, she can call me

Don't worry 'bout her, that's my seed, dawg that's all me

Just know if you cross her, then you cross me

Cross me, cross me, if you, if you, if you, if you

[Refrão]

If you cross her

Then you cross me

And nobody's comin' close, yeah

And I think that you should know that

If you cross her (anything she need, she can call me)

Then you cross me
(Don't worry about her, that's my seed, dawg that's all me)

So come on and let it go
Oh I think that you should know

[Segunda Parte]

And she ain't messin' with no other man

Now what you not gon' do is stand there

Cross for me, like you got kung-fu

Death stare, crossed armed, runnin' your mouth like a faucet

(Huh) but you don't know that my girl been doin' CrossFit

Kung-pow, get your ass with a cross kick

Blowing air out, wear ya out, you exhausted

Know she's gonna slide anytime you bitches talk shit

Keep a lil' blade in her fuckin' lip gloss kit

Ayy, no one say hi to me without her

Better pay your respect to the queen

Better do that shit without a flirt

Gotta respect the HBIC

Couple of things that you need to know
If you still wanna be friends with me

[Pré-Refrão]
