

Ed Sheeran - Dive

```
And I could live, I could die
               tom:
               Ab (forma dos acordes no tom de E )
                                                           Hanging on the words you say
Capostraste na 4ª casa
Intro: C Am F7M G
                                                             And I?ve been known to give my all
[Primeira Parte]
                                                             And lie awake, every day
            C
                                                           Don't know how much I can take
Well maybe I came on too strong
                                                            [Refrão]
       Am
Maybe I waited too long
Maybe I played my cards wrong
                                                            So don?t call me baby
                                                                     Am F7M
Oh just a little bit wrong
                                                           Unless you mean it
Am F7M
Baby I apologize for it
                                                                     G
                                                           And don?t tell me you need me
[Pré-Refrão]
                                                            If you don?t believe it
                                                               F7M
                                                            So let me know the truth
 I could fall, or I could fly
                                                             Am
                                                                   G GC
                                                           Before I dive right into you
 Here in your aeroplane
                                                            And I could live, I could die
Hanging on the words you say
 And I?ve been known to give my all
 And jumping in harder than
Ten thousand rocks on the lake
[Refrão]
                                                            [Pré-Refrão]
So don?t call me baby
Unless you mean it
         Am F7M
                                                             I could fall, or I could fly
And don?t tell me you need me
                                                             Here in your aeroplane
If you don?t believe it
                                                            And I could live, I could die
So let me know the truth
                                                           Hanging on the words you say
Before I dive right into you
                                                             And I?ve been known to give my all
[Segunda Parte]
                                                             Sitting back, looking at
                                                            Every mess that I've made
You?re a mystery
                                                            [Refrão]
I have travelled the world
And there?s no other girl like you, no one
                                                            So don?t call me baby
                                                                     Am F7M
What?s your history?
                                                            Unless you mean it
                                                                     G
Do you have a tendency to lead some people on?
                                                           And don?t tell me you need me
        F7M
                                                                         Am
?Cause I heard you do
                                                            If you don?t believe it
                                                               F7M
[Pré-Refrão]
                                                            So let me know the truth
                                                            Before I dive right into you
 I could fall, or I could fly
                                                             Am G
                                                                             G C
                                                            Before I dive right into you
 Here in your aeroplane
                                                                  G
                                                           Before I dive right into you
