

## **Ed Sheeran - Dive**

```
And I could live, I could die
                tom:
               Ab (forma dos acordes no tom de E )
                                                               Hanging on the words you say
Capostraste na 4ª casa
Intro: C Am F G
                                                                 And I?ve been known to give my all
[Primeira Parte]
                                                                And lie awake, every day
             C
                                                               Don't know how much I can take
Well maybe I came on too strong
                                                               [Refrão]
Maybe I waited too long
Maybe I played my cards wrong
                                                               So don?t call me baby
Oh just a little bit wrong
                                                               Unless you mean it
Am F
Baby I apologize for it
                                                               And don?t tell me you need me
[Pré-Refrão]
                                                               If you don?t believe it
                                                               So let me know the truth
 I could fall, or I could fly
                                                                        G
                                                               Before I dive right into you
 Here in your aeroplane
                                                               [Solo] C Am F G C Am F G
 And I could live, I could die
Hanging on the words you say
 And I?ve been known to give my all
 And jumping in harder than
Ten thousand rocks on the lake
[Refrão]
                                                               [Pré-Refrão]
So don?t call me baby
          Am F
                                                                 I could fall, or I could fly
Unless you mean it
And don?t tell me you need me
                                                                 Here in your aeroplane
If you don?t believe it
                                                                 And I could live, I could die
So let me know the truth
                                                               Hanging on the words you say
Before I dive right into you
                                                                 And I?ve been known to give my all
[Segunda Parte]
                                                                 Sitting back, looking at
                                                               Every mess that I've made
You?re a mystery
                                                               [Refrão]
I have travelled the world
And there?s no other girl like you, no one
                                                               So don?t call me baby
                                                                          Am
What?s your history?
                                                               Unless you mean it
Do you have a tendency to lead some people on?
                                                               And don?t tell me you need me
?Cause I heard you do
                                                               If you don?t believe it
[Pré-Refrão]
                                                               So let me know the truth
                                                               Before I dive right into you
 I could fall, or I could fly
                                                                        G
                                                               Before I dive right into you
 Here in your aeroplane
                                                               Before I dive right into you
