```
[Pré-Refrão]
Flick a finger
Wait for the magic to do its thing, yeah
There's more than sadness
We got within us
Let's put some colour into the grey
[Refrão]
And drop the needle on Dusty
Frost on the leaves like a lake
The moment came out of nothing
A beautiful smile on your face
Yesterday was a long night
But I got a feeling
That the future is so bright
All of the pressure washed a
Away in the low tide
But we gotta wait 'til our clothes
Are bone dry
                          D A Bm G
So I'll drop the needle on Dusty
[Ponte]
Nothing is static
On the stereo before today
 Both on the edge to throw it all away
I used to think
That every situation stayed the same
But I can see it starts to change, okay
[Refrão]
And drop the needle on Dusty
Frost on the leaves like a lake
The moment came out of nothing
A beautiful smile on your face
Yesterday was a long night
But I got a feeling
That the future is so bright
All of the pressure washed a
Away in the low tide
But we gotta wait 'til our clothes
