Ed Sheeran - Dusty
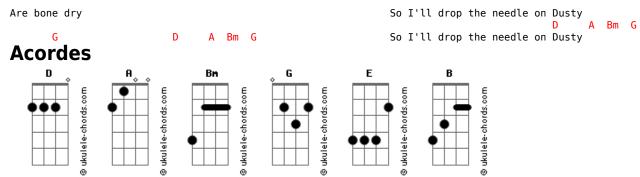

```
                        tom:
            D

           [Primeira Parte]

D              A
 I heard you callin'
         Bm  G
Now my eyes are open
D              A
 The day is breaking
         Bm   G
Into powder blue
D              A
 Sunlight is framin'
        Bm    G
Our every moment
              D
What a way to start
A                Bm  G
Off the day with you

[Pré-Refrão]

          G
Flick a finger
          D              A
Start a discussion to pick a singer

This one you'll love it
             D
I had to bring her
G                        A
Just let the speakers take you away

[Refrão]

                      D      A
And drop the needle on Dusty
Bm                      G
 Frost on the leaves like a lake
                    D      A
The moment came out of nothing
Bm                      G
A beautiful smile on your face
                      D
Yesterday was a long night

             A
But I got a feeling
                       Bm
That the future is so bright
             G
All of the pressure washed a
            D
Away in the low tide
               A
But we gotta wait 'til our clothes
           Bm
Are bone dry
      G                D
So I'll drop the needle on Dusty

[Segunda Parte]

D        A               Bm  G
 We were lost within a stormy ocean
D        A
 Nobody knew
               Bm  G
What we're goin' through
D        A             Bm  G
 We talk about it as we dip our toes in
           D
Take a breath
     A                Bm  G
And brace for the waves with you
```

```
[Pré-Refrão]

          G
Flick a finger
D                            A
Wait for the magic to do its thing, yeah
Bm                  A
There's more than sadness
           G
We got within us
                                A
Let's put some colour into the grey

[Refrão]

                      D      A
And drop the needle on Dusty
Bm                      G
 Frost on the leaves like a lake
                    D      A
The moment came out of nothing
Bm                      G
A beautiful smile on your face
                      D
Yesterday was a long night

             A
But I got a feeling
                       Bm
That the future is so bright
             G
All of the pressure washed a
            D
Away in the low tide
               A
But we gotta wait 'til our clothes
           Bm
Are bone dry
      G                D      A  Bm  G
So I'll drop the needle on Dusty

[Ponte]

E              B
 Nothing is static
              A
On the stereo before today
E        G              A
 Both on the edge to throw it all away
E        G
 I used to think
                   A
That every situation stayed the same
E      G      Bm        A
 But I can see it starts to change, okay

[Refrão]

                      D      A
And drop the needle on Dusty
Bm                      G
 Frost on the leaves like a lake
                    D      A
The moment came out of nothing
Bm                      G
A beautiful smile on your face
                      D
Yesterday was a long night

             A
But I got a feeling
                       Bm
That the future is so bright
             G
All of the pressure washed a
            D
Away in the low tide
               A
But we gotta wait 'til our clothes
           Bm
```

Are bone dry

So I'll drop the needle on Dusty

    G   D   A Bm G

D   A Bm G
