

# Ed Sheeran - Friends

Tom: E

We're not  
 No we're not friends nor have we ever been  
 We just try to keep those secrets in a lie  
 And if they find out, will it all go wrong  
 And heaven knows, no one wants it to

So I could take the back road  
 But your eyes will lead me straight back home  
 And if you know me like I know you  
 You should love me, you should know

That friends just sleep in another bed  
 And friends don't treat me like you do  
 Well I know that there's a limit to everything  
 But my friends won't love me like you  
 No my friends won't love me like you

We're not friends we could be anything  
 If we try to keep those secrets safe  
 No one will find out if it all went wrong  
 They'll never know what we've been through

So I could take the back road  
 But your eyes will lead me straight back home  
 And if you know me like I know you  
 You should love me, you should know

That friends just sleep in another bed  
 And friends don't treat me like you do  
 Well I know that there's a limit to everything  
 But my friends won't love me like you  
 No my friends won't love me like you

But then again, if we're not friends  
 Someone else might love you, too  
 And then again, if we're not friends  
 There'd be nothing I could do

And that's why friends should sleep in other beds  
 And friends shouldn't kiss me like you do  
 And I know that there's a limit to everything  
 But my friends won't love me like you  
 No my friends won't love me like you do  
 No my friends will never love me like you
