

Ed Sheeran - New York

Tom: G

(com acordes na forma de C)

Capostrate na 7ª casa

Five drinks in, a Friday night

we only came to dry your eyes

And get you out of your room

Now this bars closed its doors

I found my hand just holding yours

Do you wanna go home so soon

(Pré Coro)

Maybe we should take a ride through the night

Sing along to every song

Thats on the radio in the back of the taxi cab in brooklyn oh no no

Sun could rise burning all the streetlamps out at 3am

So dj play it again

(Coro)

Until the night turns into morning You'll be in my

arms and we'll keep driving along the boulevard

And if i kiss you darling, please dont be alarmed

Its just the start of everything if you want

New love in New York New York

Yesterday gave me a call

Stressing out about it all

Said The world is moving too fast

You don't know where to begin

cos you spent a lifetime fitting in

in New York.

Please Don't wind up on the other side by yourself

(Pré Coro)

And There'll be days screaming out to all the people that you

used to know from your window that looks upon the manhattan

skyline

Its just the way that life goes And you hear it in every song

you know

So dj play it again

(Coro)

Until the night turns into morning Youll be in my

arms and we'll keep driving along the boulevard

And if i kiss you darling, please dont be alarmed

Its just the start of everything if you want

New love in New York

(Ponte)

And every song that plays is just like the day you had

its okay to cry when i'm saying maybe that

It's a waste of all you know i'm here for you

back of the taxi cab tonight In new york

(Coro)

Its just reached the morning And you're still in my

arms so we stopped driving down the boulevard

And i just kissed you darling, i hope you wernt alarmed

Its just the start of everything if you want

A new love in New York

A new life

in New York.
