

# Ed Sheeran - Plastic Bag

tom:

A

[Primeira Parte]

I overthink and have troubles sleepin'  
 All purpose gone and don't have a reason  
 And there's no doctor to stop this bleedin'  
 So I left home and jumped in the deep end  
 Took a job for dad, I think, just to please him  
 So when I quit, I just kept it secret  
 And I have friends, but no longer see them  
 And it's just me and, now, all my demons

[Pré-Refrão]

Air heavy weighin' on my heart  
 I guess I'm done already, all but given up  
 I'm burning days till the weekends  
 And start, I just pretend I'm not where I am  
 Should I cancel my plans?

[Refrão]

Saturday night, it's givin' me a reason to r?ly on the strobe lights  
 The lifeline of a promise and a shot glass and I'll take that  
 If you're givin' out love from a plastic bag  
 Saturday night, it's givin' me a reason to r?ly on the strobe lights  
 The lifeline of a promise and a shot glass and I'll take that  
 If you're givin' out love from a plastic bag

[Segunda Parte]

My friend died, it's been years, still grievin'  
 And I thought time would be somehow healin'  
 When love finds me, I'm too numb to feel it  
 Oh, why the fuck am I still here breathin'?  
 Well, I would pray, but I don't believe it  
 Oh, woe is me, but I don't care either  
 Life is not the way that it seems, but

Maybe this will all be a dream

[Pré-Refrão]

And I'll stay steady, balanced on the rope  
 I guess that I'm not ready to rely on the hope  
 I'm burning days till the weekends  
 And start, I just pretend I'm not where I am  
 Should I cancel my plans?

[Refrão]

Saturday night, it's givin' me a reason to r?ly on the strobe lights  
 The lifeline of a promise and a shot glass and I'll take that  
 If you're givin' out love from a plastic bag  
 Saturday night, it's givin' me a reason to r?ly on the strobe lights  
 The lifeline of a promise and a shot glass and I'll take that  
 If you're givin' out love from a plastic bag

[Ponte]

I'm a wreck and I  
 Take me to the other side  
 Don't look in my eyes, oh, woah

[Terceira Parte]

It's almost mornin' and I'm still not leavin'  
 It's wearin' off, but I still can feel it  
 Another one and I'll touch the ceilin'  
 This is all I want to be

[Refrão]

Saturday night, it's givin' me a reason to r?ly on the strobe lights  
 The lifeline of a promise and a shot glass and I'll take that  
 If you're givin' out love from a plastic bag  
 Saturday night, it's givin' me a reason to r?ly on the strobe lights  
 The lifeline of a promise and a shot glass and I'll take that  
 If you're givin' out love from a plastic bag
