

Ed Sheeran - Welcome To The World

tom:

[Primeira Parte]

Welcome to the world
I heard your heart beat and lost every word
Just stood there quietly taking in the sound
Of our love
This is gonna hurt
But I'll stand beside you, for better or for worse
And I will find you whenever you're lost
I'll be right here

[Refrão]

And ooh, I know that everything's changing
Ooh, and I don't wanna miss a thing
Ooh, I know that life won't ever be the same
And this love won't ever go away

[Segunda Parte]

Welcome to the world
Through all the pain, you're a diamond in the dirt
Don't let them change you, words are only words
Just like I loved you

Acordes

And yes, you were the first
Brought a new beginning, bright and unreserved
A beautiful red flower in the earth
Will grow, and I know

[Refrão]

Oh, I know that everything's changing
Oh, and I don't wanna miss a thing
Oh, I know that life won't ever be the same
And this love won't ever go away

[Ponte]

Welcome to the world
Welcome to the world
Oh, welcome to the world (welcome to the world)
Welcome to the world (welcome to the world)

[Refrão]

Ooh, I know that everything's changing
Ooh, and I don't wanna miss a thing
Ooh, I know that life won't ever be the same
And this love won't ever go away
