## **Eden - Statues**

```
Tom: C
   Dm F
   I'll break the silence
And watch it fall in pieces
Dm
The aftermath of passive violence
That "he said that she said she cheated"
  G
                 Dm
And oh, I got a feeling
I think you should know
I'm trying to find hope
                     Dm
There's nothing left to hold
I'm stuck down here in this hole
               B
I'll dig my way out
I'll stand just like a statue
Just like you
                Dm
Acting like the sky's just about to fall
With everything I can't do
I can't move
                Dm
In the end I'll find my way back home
(Find myself at home)
R
Just say something
Don't leave me here with nothing
    Dm
I'm sure I deserve more than this
The self-destruction
B
I'll think 'till I can't function
I should've seen it coming to this
They say it's not having this
And you're one shot 'till it's all over
Dm
Say it "I just want out"
                           R
Just let your words wash over me
                 Dm
And oh, a sinking feeling
The flash fire's gone out
B
I'm trying to find hope
                     Dm
There's nothing left to hold
I'm stuck down here in this hole
I'll dig my way out
I'll stand just like a statue
В
Just like you
                Dm

With everything I can't do
